|                  |  |
|------------------|--|
| Repository       | Any of the "other" drug categories will appear at the end of the category. Narratives will be sent for each incident using the other category to help us identify when additional drug fields should be added.             |
| RMS              | More than three drugs will not be an option in the drop down. This NIBRS requirement will be applied at the MTIBRS repository level.   |
| RMS & Repository | Officers will be allowed to enter all the drugs suspected - and all drugs will be sent to MTIBRS. FBI NIBRS restrictions (such as only offenders suspected of using) will be applied at the state MTIBRS repository level. |
| RMS & Repository | Drug type fields will be opened for any person (victim, offender, witness, etc.) who is suspected of using drugs or alcohol and when there is suspected drug involvement in an incident                                    |
